

Narcissists, Drama Queens, & Psychopaths

Anyone Can Adopt New IT Initiatives

Mona Reimers, MBA, FACMPE, CPC

OBJECTIVES

- ▶ Discuss barriers for adopting new IT initiatives, and the extra costs certain personalities bring when they rear their ugly heads.
- ▶ Provide steps to prepare for adoption that make success more likely.
- ▶ Discuss examples of how to eliminate barriers to IT adoption.
- ▶ Learn several actionable tips to easily apply in your own practice when rolling out new IT initiatives.

WHY DO IT PROJECTS FAIL?

- ▶ The failure of major projects to come to fruition and deliver the expected results is a recognized problem.
- ▶ You've probably lived it.
- ▶ Blame is often shared between staff, management, vendors, physicians, governmental expectation, competing priorities, and so forth.

***“Don't confuse sales with delivery.”
Implementation of change is your responsibility.***

WHY DO IT PROJECTS FAIL?

According to the website physicianpractice.com, failure of major health IT projects fit these categories:

- 1.) Poor planning & unclear/changing goals & objectives
- 2.) Inappropriate skills
- 3.) Lack of executive support or user involvement
- 4.) Failure to act as a team

DRAMA

BARRIERS TO IT ADOPTION

- ▶ Change is hard
- ▶ Failure to plan the change beyond the “we need to change” statement
- ▶ Even though it is technologic solution, people are almost always involved
- ▶ Mistrust of the new processes or new software

IS CHANGE HARD?

Most would say yes. But is it?

IS CHANGE HARD? OR, IS CHANGE HARD WORK?

- ▶ IT adoption takes clear understanding, forethought, trial, practice and consistency.
- ▶ Studies indicate that the success rate of major corporate changes varies widely, from as low as 25% or a high of 75%.
- ▶ The definition of success varies. A home run versus a grand slam.

DON'T ASSUME THAT CHANGES ARE HARD OR THAT FAILURE IS LIKELY.

CHANGE MANAGEMENT - A SOFT SCIENCE?

According to Harvard Business Review (July 31, 2017)

- ▶ Change Management will follow the path of marketing - moving from a soft science to a hard science where predictive analytics are used on shoppers today.
- ▶ When Change Management works it is due to the work of “skilled, experienced professionals who know how to work togetherto help a business reach its change goals.”

PEOPLE WILL CHANGE FOR DIFFERENT REASONS

- ▶ Understand that even people without psychologic disorders have personality types.
- ▶ Need to appeal to multiple personalities during the roll out of the changes.
- ▶ The challenge is meeting the needs of many personalities at once. Typical personality assessments divide the average population in to four categories: Controlling, Supporting, Promoting & Analyzing.

DEALING WITH DIFFERENT TYPES

SUPPORTING

- ▶ Listen and demonstrate listening to their feelings.
- ▶ Approach disagreement slowly & avoid disagreement in meetings.
- ▶ They value their relationships. To them, your project means something you will achieve together.

PROMOTING

- ▶ Understand they like to talk...a lot. They need to share their ideas.
- ▶ They like excitement, make the presentation fun or acknowledge that it just stinks, “but, hey, I’m glad I get to work with you.”
- ▶ Stay away from details (where possible) & stick to the big picture.

DEALING WITH DIFFERENT TYPES

CONTROLLING

- ▶ Get to the point - quickly.
- ▶ Give them choices - where possible.
- ▶ Be decisive when choices are not possible.

ANALYZING

- ▶ Be organized and logical. Give them time to get used to new ideas.
- ▶ Minimize risk - where possible.
- ▶ Ask for help in getting the facts gathered before starting projects.

CHANGE

“When you step into a turnaround situation, you can safely assume four things:

Morale is low

Fear is high

The good people are halfway out the door

The slackers are hiding,”

Nina Diesea, Chairwoman of
McCann Erickson Worldwide

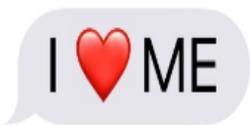

NARCISSISTS, DRAMA QUEENS, & PSYCHOPATHS

iMessage
Today 3:13 PM

Delivered

IDENTIFYING THE NARCISSIST

- ▶ Frequently exaggerate or distort the truth.
- ▶ Project false images about themselves.
- ▶ They like going rogue and violating rules.
- ▶ Sometimes are the office bully (but not always).

IDENTIFYING THE NARCISSIST

END

DETOUR

THE DRAMA QUEEN (KING)

- ▶ Thrive on attention.
- ▶ Every change you make is turned into something about THEM.
 - ▶ The world is often ending and everything is a disaster.
- ▶ You will often find them in the parking lot, the breakroom or at someone else's desk recounting how they have (yet again) saved the day.
 - ▶ They love gossip and the sound of their own voices.
- ▶ They are always comparing themselves to others.

THE DRAMA QUEEN (KING)

CONTINUATION.

IDENTIFYING THE PSYCHOPATH

- ▶ Psychopath's manipulate, deflect and deceive.
- ▶ They can be very charming, are very good actors. They know how to fake emotions, tears, and sincere facial expressions.
- ▶ They see themselves as the center of the universe.
- ▶ If they are caught in a lie, they will just tell another lie or suggest that it was a misunderstanding. Their power comes from discrediting you.
- ▶ They lack empathy & never feel remorse for doing something wrong.

IDENTIFYING THE PSYCHOPATH

GS

dit

TIPS FOR ADOPTING TECH SOLUTIONS

MAKE SURE THAT YOU TAME YOUR OWN PATHOLOGIES

- ▶ Recognize that there is a healthy narcissist in most of us that provides us with our self esteem. But keep your own narcissistic tendencies in check. IT solutions must be shared successes. Your team will appreciate shared enthusiasm and shared credit.
- ▶ Tone down your own need for gossip. As a leader you may actually need to know what's going on in the lives of your staff or how well your tech teams work together, but take note of whether you are stirring drama. Challenge others to keep you in check if certain people tend to bring that out in you.

TIPS FOR ADOPTING TECH SOLUTIONS

MAKE SURE THAT YOU TAME YOUR OWN PATHOLOGIES

- ▶ According to the book “The Psychopath Next Door,” 1 in 25 people is a psychopath. If you might be a tad high on the scale, understand that your need to win can’t happen without cooperation and work from other people.
- ▶ Take on a little more work than you might otherwise delegate so others can see your investment.
- ▶ You can take credit for their work later.

“ There are two kinds of people, those who do the work and those who take the credit. Try to be in the first group; there is less competition there. ”

-Indira Gandhi

Pre-cert begins encounter form

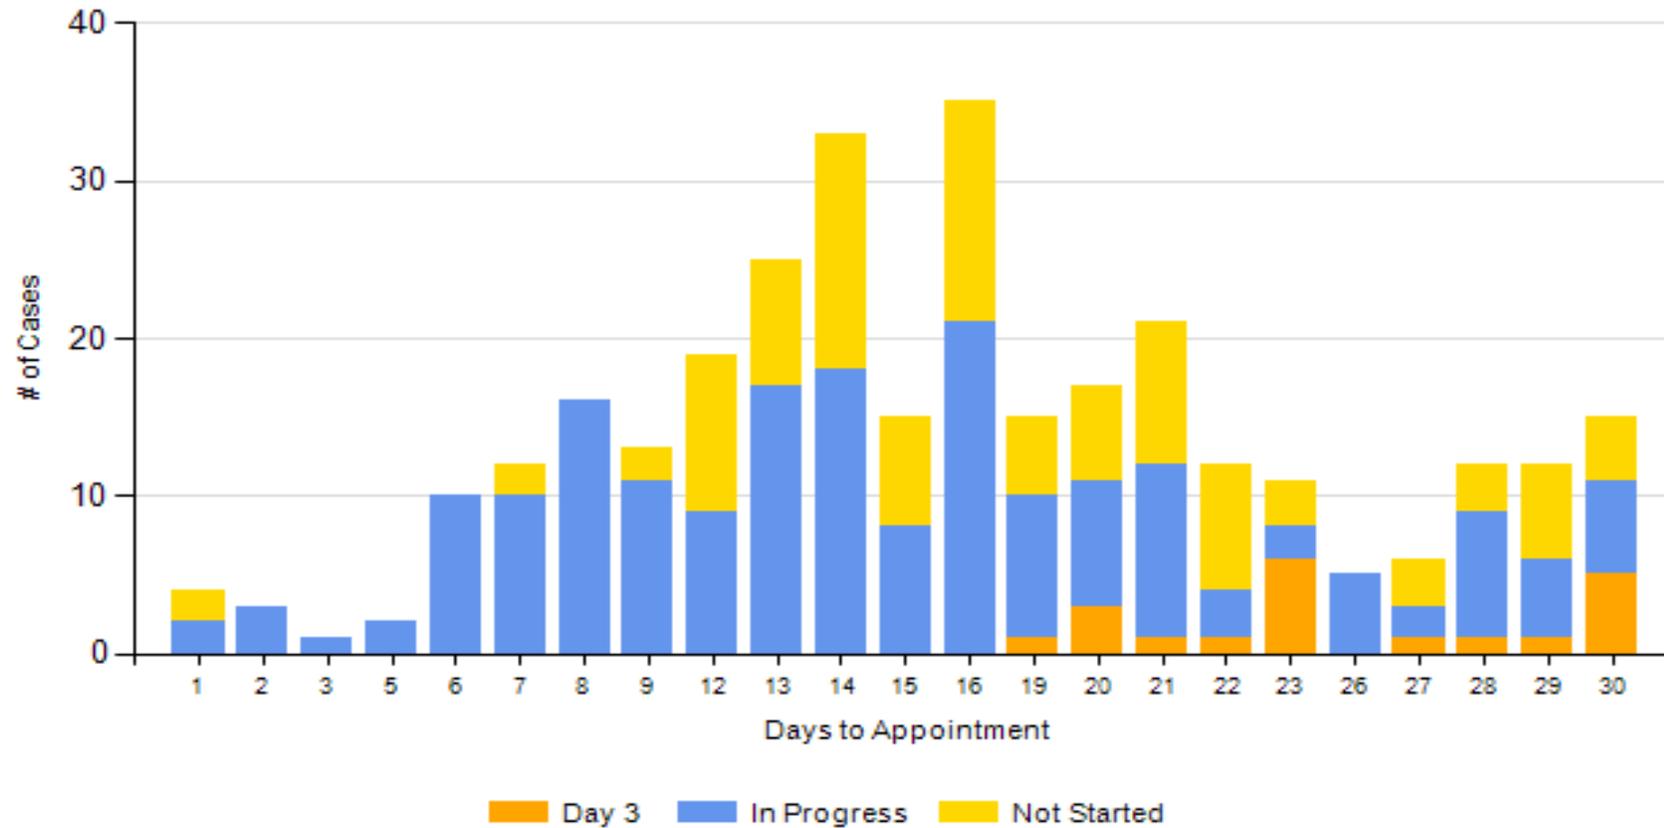

The screenshot shows a web-based form for a Pre-Cert Specialist. The form is divided into several sections:

- Pre-Cert Specialist:** Includes a list of names (Angela, Ashley, Caitlyn, Hanna, Julie, Tina, Kathe) with checkboxes. Tina is selected. There is also an "Other:" field.
- What was Denied?:** Includes checkboxes for "Imaging Study", "Interventional", and "Surgery". "Surgery" is selected. There is also an "Other:" field.
- Date of Denial:** 04/09/2015
- Physician:** Jeffrey L. Harris MD
- Procedure/Test:** A dropdown menu.
- Location:** Radio buttons for R, L, and B. "R" is selected.
- Body Part:** Checkboxes for Knee, Hip, Shoulder, and Spine. "Hip" is selected. There is also an "Other body part:" field.
- Insurance Company:** Checkboxes for Medicaid, Anthem, Signature Care, PHP, Lutheran Preferred, Aetna, Cigna, and United Healthcare. "Medicaid" is selected.
- Reason for Denial:** Checkboxes for "Not a covered benefit", "Inactive", "Does not meet Milliman Guidelines", "Failed conservative treatment", "Not tried conservative treatment", "Not medically necessary", and "Smoker". "Not a covered benefit" and "Failed conservative treatment" are selected.
- Documentation Required by Payer:** Checkboxes for "Physical Therapy", "Home Exercise Program (HEP)", "Recent Imaging Documentation", "Additional Imaging Study", "Injections with Relief Results", "Activity Modifications", "NSAIDS/Medications with relief", "Conservative Treatment", and "Peer to Peer". "Physical Therapy", "Home Exercise Program (HEP)", "Additional Imaging Study", "Injections with Relief Results", "Activity Modifications", "NSAIDS/Medications with relief", and "Conservative Treatment" are selected.
- Message to Physician from Pre-Cert:** A large text area for notes.
- Additional Questions:** A series of questions with radio buttons for "Yes" and "No".
 - "Would doctor like to try Physical Therapy?" Yes
 - "Would doctor like to try Home Exercise Program?" Yes
 - "Would doctor be ordering additional Imaging Study(s)?" Yes
 - "Would doctor like to try an injection?" Yes
 - "Would doctor like to make activity modifications?" Yes
 - "Would doctor like to try NSAIDS/Meds?" Yes
 - "Would doctor order additional conservative treatment?" No
 - "Would doctor like to arrange Peer to Peer?" No
- Action Buttons:** "Order PT", "Order HEP", "Order Imaging", "Order Interventional", and "Order Med".
- PoA Notified:** Checkboxes for Navigator, Scheduler, Pre-Cert, and Patient. "Pre-Cert" is selected.
- Comments:** A text area for additional notes.
- Signature Fields:** "Pre-Cert Signature" and "PoA Signature" buttons.

Clinical response fields and next action is built in

TIPS FOR ADOPTING TECH SOLUTIONS

*Perfection is the
enemy of progress.*

KEYS TO SUCCESS

- ▶ Make certain your data is YOUR data! Nothing will cause more frustration than paying to get your own data in the form you need it, when you need it.
- ▶ Data Governance. Nothing removes drama and personality issues from IT projects faster than well defined responsibility for the quality and workflow for each piece of important data entry in your organization.
- ▶ Make reporting as easy (and automated) as possible. You can't manage everything IT can give you if you have to spend your entire day running reports.
- ▶ Use the tools you already have before buying more.

TIPS FOR ADOPTING TECH SOLUTIONS

- ▶ Utilize change management protocols - and be disciplined enough to stick with it, even if it isn't "by the book."
- ▶ Set realistic short term goals.
- ▶ Be open to change. Changes to your plan may have a better final result than you initially imagined.
- ▶ Understand that when it comes to IT projects you will never be done!

TIPS FOR ADOPTING TECH SOLUTIONS

- ▶ Technology may seem impersonal, but nearly everyone will feel that technology changes at work are very personal.
- ▶ Talk to the users and those that receive downstream work product.
- ▶ Tailor your messages to the end users; narcissists, drama queens, & psychopaths included.

QUESTIONS?

The background features abstract, overlapping geometric shapes in various shades of blue, ranging from light sky blue to deep navy blue. These shapes are primarily located on the right side of the frame, creating a modern, dynamic aesthetic.
